PREVIOUSLY IN...
THE SUPREME POWER UNIVERSE

The Squadron Supreme is just that. Enlisted by the United States government to protect America's interests at home and abroad, this team of super-powered individuals has been trained to operate with extraordinary force and unified military precision.

No quarter given, none asked. Secretly, however, it is comprised of a diverse group of individuals with separate – and sometimes sinister – agendas.

THE ULTIMATE UNIVERSE

Reed Richards, handpicked to join the Baxter Building think tank of young geniuses, spent his youth developing a teleport system that transported solid matter into a parallel universe canned the N-Zone. Its first full-scale test was witnessed by Reed, fellow think tank members Sue Storm and her brother Johnny, as well as Reed's childhood friend Ben Grimm.

There was an accident. The quartet's genetic structures were scrambled and recombined in a fantastically strange way. Reed's body stretches and flows like water. Ben looks like a thing carved from desert rock. Sue can become invisible. Johnny generates flame.

For all our heroes, these new powers have been a mix of scientific wonder and heroic joy...all except Ben, who has become a tortured soul, trapped in a rocky prison he will never escape. Reed has vowed to find a cure for his friend...but has yet to succeed.

These two universes have existed on parallel planes, each unaware of the other's existence. All of that is about to change. Neither Universe will remain unchanged, and not everyone will be going back to their original homes...

Now, after a horrendous descent and fiery crash into a rural Nebraska cornfield, he lies at the edge of death, lapsing in and out of a coma as his body desperately tries to heal. And that's when things really get bad.

The men who sent the robot to destroy Wolverine have come to finish the job. The townsfolk who witnessed the crash have gathered up a mob to hunt down and destroy the alien that's landed. And Wolverine's fate just might rest in the hands of the strange little girl who first found him in that dark cornfield. A strange little girl with an affinity for taking care of odd creatures, and whose family holds a deep, dark secret hidden from the light of day...

Now, Ares – who has invaded Olympus, attempted to take over Earth, stood at the walls of Troy, and fought toe to toe with and against Earth's greatest heroes – has turned his back on Olympus and centuries of brutal warfare to begin life anew on Earth with one goal: to raise his child. But what happens when Olympus, under siege and in danger of falling, calls on its most violent son to come to its rescue? And what happens if Ares refuses? Will Zeus destroy his son...and his grandson... to save his city? This story brings together heroes new and old, uniting Hercules and the Greek Pantheon with the Marvel Universe. Ares is the God of War, so we promise this is like no heroic book Marvel has done before. Heads will fly and blood will flow between Ares and anyone who stands in the way of his son. Collects ARES #1-5.
